

X-TENDER

ANALYSIS	(%W/W)
COBALT (derived from cobalt sulphate)	2%
MOLYBDENUM (derived from sodium molybdate)	3%

PRODUCT INFORMATION

X-Tender is a specialty foliar fertiliser containing Cobalt, Molybdenum and formulating agents. Cobalt and Molybdenum are important micronutrients. Cobalt and Molybdenum can delay fruit maturity to natural timing. When applied as a foliar spray, X-Tender will slow the rate of ethylene and other hormones that cause maturity.

X-Tender is used to delay the target harvest date to natural timing on a range of crops. Always ensure a sound fertiliser program and good calcium nutrition for crops treated with X-Tender. Do not use on plants deficient in copper.

STORE IN A COOL PLACE OUT OF DIRECT SUNLIGHT

The image shows a green rectangular label for Stoller's X-TENDER. At the top left, 'Stoller's' is written in white. Below it, 'X-TENDER' is written in large, white, stylized letters, slanted upwards. In the center, there is a white logo consisting of three interlocking circles. Below the logo, the text 'STOLLER AUSTRALIA PTY. LTD.' and 'A.C.N. 065 320 747' is printed. To the left of this, the address '1 Creswell Road Largs Bay SA 5016' is listed. To the right, the phone number 'Phone (08) 81690 0900', fax number 'Fax (08) 8169 0909', and website 'www.stoller.com.au' are provided. At the bottom left, a white box contains the text 'CONTENTS 1 5 20 200 LITRES'. At the bottom right, it says 'MADE IN AUSTRALIA'.

APPLICATION

Apply as a foliar spray at fruit colour change

Rate: 1 to 1.25 litres per hectare in 1000 litres of water

On table grapes apply at 14-16 brix

SHAKE WELL BEFORE USE

ALWAYS WEAR GLOVES, GOGGLES AND PROTECTIVE CLOTHING. WASH HANDS THOROUGHLY AFTER USE.
