<b>Bio-Forge</b>	Stoller's Bio-Forge contains a range of key nutrients to ensure healthy crop growth, even in stress conditions. An application of Bio-Forge after stress can help the plant restore normal growth and maintain yield potential. It is commonly used as a foliar spray, in furrow or seed and seedling treatment. The added cobalt and molybdenum can also assist in the reduction of ethylene stress and the utilisation of nitrates. Bio-Forge incorporates Stoller's Patented Technology, featuring unique chemistry. <b>Analysis (N 2.5%, K 3.0%, Co 0.25%, Mo 0.35%)</b>	
<b>Foli-Zyme</b>	Stoller's Foli-Zyme is a proven plant health product that enhances healthy growth in all plants. It is a complete liquid for stress relief with a unique nutrient combination containing Stoller's Co-Factor additives. Foli-Zyme is an effective foliar booster that can help a plant initiate new vegetative growth as well as recover from stress and slow growth. It is applied as a foliar, in repeat applications where necessary. <b>Analysis (N 15%, K 3.0%, Ca 4.0% plus trace elements and Stoller's Co-Factors)</b>	
<b>CoMo</b>	Stoller's CoMo is a combination of both cobalt and molybdenum. These 2 nutrients affect the total nitrogen supply to the plant, essential for the synthesis of vitamin B12 compounds required by the nitrogen-fixing process. With only one application per year, CoMo can increase sugar content of plants and help plants utilise water in dry years resulting in higher yields. <b>Analysis (Co 1.0%, Mo 6.0%)</b>	
<b>SETT Enhanced</b>	Stoller's SETT Enhanced improves pollination and fruit retention, by strengthening flowers. The calcium and boron assists with pollen tube formation and fruit quality and can lead to higher yields, especially in cold night conditions. Stoller's patented polyamine formulation ensures it is safe to apply when flowers and fruits are present. <b>Analysis (Ca 11.0%, B 1.4% plus Stoller's Co-Factors)</b>
